Global Psychiatry is a new peer-reviewed open access psychiatric journal, which publishes scientific articles covering the entire spectrum of mental health from all over the world, i.e. we want global authorship and global subject cover.

It is our aim to make a significant impact on international psychiatric literature and to be a valuable resource for all authors, clinicians and researchers in psychiatry. We would welcome and are happy to support young psychiatrists and researcher from developed and developing countries to design and publish state-of-the-art papers.

The journal publishes manuscripts that are devoted to all aspects of psychiatry including: Addiction, ADHD, Anxiety, Bipolar disorder, Depression, Genetics, Neuroscience, Mental health, Mental health care, Personality disorders, Psychiatry, Psychology, Psychopharmacology, Rehabilitation, Social work, Schizophrenia.

A waiver on Article-Publication-Charges is applied for articles submitted in 2018/ early 2019.

Your benefits of publishing in GP:

- ▶ Transparent, comprehensive and fast peer review;
- ▶ Convenient, web-based and widely known manuscript submission and tracking system (Editorial Manager);
- ▶ Efficient route to fast-track publication and full advantage of De Gruyter's publishing platform;
- ▶ High international visibility of published articles;
- ▶ Language assistance for authors from non-English speaking regions.
